

A2132

Fresa per bordatrici con inserti in diamante
diametro 100 30°

*Diamond edge banding insert cutter 1000 mm
diameter 30°*

IMPIEGO / FUNCTION

bordatrice
edge banding machine

DESCRIZIONE / DESCRIPTION

Testa portainseri in diamante per la lavorazione di rettifica e preparazione del pannello nel processo di bordatura. Gli inserti in PCD sono sostituibili e riaffilabili fino a 4 volte circa. Per una corretta finitura della superficie lavorata gli inserti devono avere la stessa altezza e devono quindi essere affilati tutti insieme.

Diamond insert head for premilling and preparation of the panel in the edging process. The PCD inserts are replaceable and can be sharpened up to approximately 4 times. For a correct finish of the machined surface, the inserts must have the same height and must therefore be sharpened all together.
